Summer reading programs are a great way to encourage school children to read during their summer vacation, use the library, and develop the habit of reading. The benefits to children in a summer reading program include:

- Encourages reading to become a lifelong habit
- Activities draw in reluctant readers
- Reading over the summer helps children keep their skills up
- Programs generate interest in the library and books

And it being summer, the program can be just good fun and provide an opportunity for family time! Come join us this summer!
